

## JOHN MERRIMAN

John Merriman has 40 years of experience in the architectural profession. He has been involved in the entire spectrum of the field, from programming and schematic design through design and contract administration.

### Education/Licensing

B. Arch. - Miami University/Ohio

Registered Architect, Connecticut

### Experience with Allan Greenberg, Architect, LLC

At AGA's Greenwich office, John is currently overseeing the construction phase of a large residential project in Connecticut.

### Other Professional Experience

John has extensive experience covering an array of project types, from highly detailed residential designs to large university buildings, corporate work, and high profile hospitality projects incorporating custom lighting, fabrics, furniture, graphics, and art. He has overseen the construction of food research laboratories and large corporate headquarters. He was the Project Director and managed design and construction of a large number of airline projects throughout the East Coast, including concessions, premium customer lounges, passenger terminal additions, and entire terminal buildings.

John has extensive experience managing multidisciplinary design teams and recently managed a highly successful, award-winning architectural firm in the western part of the country.
