

ROBERT COLARUSSO

Robert Colarusso has over twenty years of comprehensive and practical experience in all phases of architecture. He has served as both Project Manager and Senior Project Architect, supervising and participating in the design, project administration and construction administration of technically complex and architecturally challenging buildings as diverse as large commercial structures, low and mid-rise office buildings, industrial manufacturing plants, and scrupulously designed and detailed private residences

Education/Licensing

B. Arch., University of Miami
Architectural Studies, Cambridge University
J.D., George Mason University School of Law
Registered Architect, Commonwealth of Virginia

Experience with Allan Greenberg, Architect, LLC:

Currently he is serving as Project Architect on a new 15,000 s.f. residence in Washington D.C. and a new residence in Bethesda, Maryland. Previous projects have included acting as Project Manager on a 16,000 s.f. residence in Northern California; Project Manager on the restoration of a ca. 1920's craftsman style bungalow in Woodside, California; Project Architect on a 30,000 s.f., residence and pool house on the Connecticut coast; Project Architect on the renovation and addition to a ca. 1785 American colonial residence in historic Old Town Alexandria, Virginia. Additional involvement includes participation as Architect on the Rice University Humanities Building and Dupont Hall at the University of Delaware as well as several residences in Connecticut and New York.

Other Professional Experience:

Robert's prior professional experience as project architect includes several mid-rise office buildings, residential style office park complexes, and numerous commercial establishments including furniture stores and warehouses, retail shopping centers and grocery stores. Additionally, Robert has been Project Manager on the design and construction of two manufacturing plants and a 100,000 s.f. cargo loading facility at Dover Air Force Base, Delaware.
