

TOMAS E. RAMIREZ

Tomas Ramirez has eight years of professional architectural experience. He started his architectural career in Guam, where he used his education in classical principles to design numerous commercial, educational, single- and multi-dwelling residences that respond to the tropical environment. His exposure to a variety of projects worldwide gives him the technical knowledge it takes to tackle a variety of design challenges.

Education/Licensing

B.A., University of Notre Dame

Rome Studies Program

Currently registered to take the ARE Guam
